About the Island

Common Character Knowledge

The Island is rumored to have magical healing powers, though magic is claimed to behave strangely there.

No one really understands why the famous Faux River (pronounced fox) flows uphill from Glimmer Falls.

Some people fall in love with the Island and apparently decide to stay.

There is only one cruiseline serving the Island. Trips are infrequent and fully-booked far in advance. One happy traveler was overheard saying, "Boy, I sure was lucky to find an open ticket for this cruise!"
